

Problems to Watch for in Seven Year Olds

Front Teeth Crossed

Back Teeth Crossed

Severely Crowded Teeth

Open Bite

An open bite is usually due to an oral habit.

Flared Out Teeth

Teeth erupting improperly

Ecto: Improperly erupting upper molar

Completely Crossed Bite

Excess Spacing

Harmful Habits

Orthodontic problems, like the ones pictured above, will benefit from a full evaluation and diagnosis. Early intervention of the above problems is often most effective at a young age, and can eliminate or reduce the need for complex orthodontic treatment in the teen years. Our goal is to provide each patient with the most appropriate treatment at the most appropriate time.

Everyone Smiles in the Same Language.....
